#### **WINE TASTING**

We will enjoy wine tasting and vineyard tours at the following properties:

#### **Sadlers Creek Wines**

Established in 1990, Saddler's Creek is a boutique wine company situated in Pokolbin, the heart of the Hunter Valley. We specialise in producing premium and super premium wines from some of Australia's premium and oldest wine growing regions. Saddler's wines are distinctly different than the vast majority of wine product available to wine lovers. Our wines are made to a relatively simple principle, that is, to produce intense lush flavour and yet have the ability to be enjoyed with the finest of foods. We believe that fine wine has to enhance the flavour of any accompanying meal. After all, wine is the only alcohol made for the sole purpose of being enjoyed with food. Sadlers Creek is owned by well known racing identity John Johnstone, breeder of Golden Slipper winner Ha Ha.

#### **Tyrells**

Established in 1858 by English immigrant Edward Tyrrell, Tyrrell's Wines is one of Australia's preminent family owned wine companies with vineyards extending from their historic home in the Hunter Valley to the Limestone Coast (SA) and Heathcote (VIC). Headed up by fourth generation family member Bruce Tyrrell, Tyrrell's is home to

some of Australia's most awarded wines including the iconic Vat 1 Semillon. Since 1971, Tyrrell's has been awarded over 5,000 trophies and medals and in 2010 was named "Winery of the Year" in James Halliday's Australian Wine Companion. With the fifth generation, Chris, Jane and John, involved in the business, Tyrrell's will continue to remain family owned with the simple philosophy of producing high quality wine that people love to drink.

#### **Audrey Wilkinson**

The Wilkinsons were true pioneers of the Australian winemaking industry. Despite two earlier ventures in Australia, the Wilkinson family returned after the brothers Frederick and John had studied winemaking in France and Germany. In 1866 the family acquired the present site of the Audrey Wilkinson vineyard. Living in tents, they cleared the land and

planted vines sourced from the MacArthur Onslow property. By the early 1900s, Audrey Wilkinson collected awards around Australia for his hock, claret and fortified wines. Large quantities were exported to London. Audrey committed to leading- edge technology which, at the end of the 19th century, included open cement fermenters and steam-powered crushers and hoppers. It was here the Audrey Wilkinson legacy was born.
